Funds under the Scheme:

Name of Funds	Fund Category
AmPRS – Growth Fund	Core (Growth)
AmPRS – Moderate Fund	Core (Moderate)
AmPRS – Conservative Fund	Core (Conservative)
AmPRS – Islamic Equity Fund	Equity (Islamic)
AmPRS – Islamic Balanced Fund	Balanced (Islamic)
AmPRS – Tactical Bond	Feeder Fund (Bond)
AmPRS – Dynamic Sukuk	Feeder Fund (Sukuk)
AmPRS – Asia Pacific REITs	Real estate (REITs)

Hereinafter, collectively called the "Funds" or the "Core Funds" and individually called the "Fund".

What is the Fund about?

AmPRS – Dynamic Sukuk is a feeder fund issued by AmFunds Management Berhad that aims to provide capital appreciation by investing in AmDynamic* Sukuk (the "Target Fund").

Who is the Fund suitable for?

The Fund is suitable for Members who:

- seek steady growth in value by investing in Sukuk as an asset class; and
- are willing to assume additional interest rate risk, duration risk and liquidity risk associated with investing in Sukuk with long duration (i.e. there will be no portfolio maturity limitation) and low credit ratings (i.e. there will be no minimum rating for Sukuk purchased or held by the Target Fund)

What is AmPRS – Dynamic* Sukuk?

The AmPRS – Dynamic* Sukuk has been certified as being Shariah-compliant by the Shariah Adviser appointed for the Fund.

Fund Category	Feeder Fund (Sukuk)
Fund Type	Growth
Investment Objective	The Fund aims to provide capital appreciation by investing in the AmDynamic* Sukuk. <i>Note: Any material change to the investment objective of the Fund would require Members' approval.</i>
Investment Strategy	The Fund seeks to achieve its investment objective by investing a minimum of 85% of the Fund's net asset value ("NAV") in the AmDynamic* Sukuk ("Target Fund") at all times. This implies that the Fund has a passive strategy. <i>Note: A replacement of the Target Fund would require Members' approval.</i>
Asset Allocation	• A minimum of 85% of the Fund's NAV will be invested into the Target Fund; and • Up to 15% of the Fund's NAV in Islamic liquid assets
Base Currency	Ringgit Malaysia (RM)
Performance Benchmark	Bond Pricing Agency Malaysia (BPAM) Corporates Sukuk Index, which is also the performance benchmark of the Target Fund. <i>Note: Effective 25 July 2015, the performance benchmark has been changed from Bloomberg AIBIM Bursa Malaysia Sovereign Shariah Index (BMSSI) to BPAM Corporates Sukuk Index.</i>
Launch Date	25 November 2013
Distribution Policy	Subject to availability of income, distribution (if any) is incidental. At the Investment Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) declare distribution when the Fund has insufficient realised gains or realised income to do so or (ii) increase the amount of distributable income to the Members, after taking into consideration the risk of distributing out of capital. The Fund aims to provide capital appreciation. While this may generally mean that the Fund seeks to increase its NAV per unit, distributing out of capital may not necessarily erode the value of the investment of the Members as the distributions declared are reinvested back into the Fund. Hence, the Fund's capital distribution, if any, would still be consistent with the investment objective of the Fund. Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the

	Members' original investment and may also result in reduced future returns to Members. When a substantial amount of the original investment is being returned to the Members, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.
	Income distribution (if any) will be in the form of units.

*The word "Dynamic" in this context refers to the Target Fund's investment strategy which is active management, not buy-and-hold strategy.

Target Fund's Information

Name of the Target Fund	AmDynamic* Sukuk
Manager	AmFunds Management Berhad
Investment Manager	AmIslamic Funds Management Sdn Bhd
Domicile	Malaysia
Regulatory Authority	Securities Commission Malaysia
Investment Objective	The Target Fund aims to provide capital appreciation by investing primarily in Sukuk both locally and globally. <i>Note: Any material change to the investment objective of the Target Fund would require Unit Holders' approval.</i>
Investment Strategy	To achieve the investment objective, the Target Fund is actively managed to enhance and optimize returns by investing directly in sovereign, quasi-sovereign and corporate Sukuk either directly or via collective investment scheme (CIS). In managing the Target Fund, there are: - no sector weight constraints; - no minimum rating for a Sukuk purchased or held by the Target Fund. A higher level of credit risk may generate a relatively higher level of expected return; and - no portfolio maturity limitation. The Target Fund may invest in Sukuk of varying maturities in view of the rate of return scenario The Investment Manager will also: - analyze the general economic and market conditions; - use models that analyze and compare expected returns and assumed risk; - focus on Sukuk that would deliver better returns for a given level of risk; - consider Sukuk with a favorable credit outlook and potential for capital appreciation; and - manage the portfolio by taking into account the coupon rate and time to maturity of the Sukuk The Target Fund invests in Malaysia and to a lesser extent, in eligible markets of other countries globally. The Target Fund is actively managed. However, the frequency of its trading strategy will depend on investment opportunities.

Who am I investing with?

PRS Provider	: AmFunds Management Berhad ("AFM")
Trustee	: Deutsche Trustees Malaysia Berhad
Trustee's Delegate (Custodian)	: Deutsche Bank (Malaysia) Berhad
Taxation Advisor	: Deloitte Malaysia Tax Services Sdn. Bhd. (formerly known as Deloitte Tax Services Sdn. Bhd.)
Auditor	: Ernst & Young PLT

All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties. The Fund may have dealings with parties related to the PRS Provider. The related parties defined are AmIslamic Funds Management Sdn Bhd ("AIFM"), AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad. The directors of AFM may have direct or indirect interest through their directorships in parties related to AFM.

The PRS Provider may conduct cross trades between funds and private mandates it currently manages provided that all criteria imposed by the regulators are met. Notwithstanding, cross trades between the personal account of an employee of the PRS Provider and the Fund's account and between the PRS Provider's proprietary trading accounts and the Fund's account are strictly prohibited. The execution of cross trade will be reported to the investment committee and disclosed in the Fund's reports accordingly.

How does the Scheme work?

Contributions to the Fund(s) under the AmPRS can be received by a PRS Provider from an employer (who contributes for its employees) or from any individual who has attained the age of 18 years as of the date of opening of a private pension account with the PPA.

If you do not specify your investment option when making a contribution, we will automatically allocate your contribution into Core Funds under the default option of the Scheme, according to your age. Effective 1 March 2021, the default option of this Scheme consists of the following Core Funds:

Core Fund	Age
AmPRS – Conservative Fund	for Members aged 55 years and above
AmPRS – Moderate Fund	for Members aged 45 years and above but have not reached 55 years
AmPRS – Growth Fund	for Members below 45 years old

Note: The current retirement age is fifty five (55) years old or any another age as may be specified by the Securities Commission Malaysia ("SC").

You may actively select one or more Core Funds or non-Core Funds notwithstanding that the Core Funds do not correspond with your age.

All contributions made by a Member will be maintained in two separate sub-accounts by the PRS Provider as follows:

- Sub-Account A which holds 70% of all contributions made to any Fund under the Scheme which is reflected in units which are not available for pre-retirement withdrawal, except for death of a Member or permanent departure of a Member from Malaysia or withdrawal due to permanent total disablement, serious disease or mental disability; and
- Sub-Account B which holds 30% of all contributions made to any Fund under the Scheme which is reflected in units which are available for pre-retirement withdrawal, subject to payment of tax penalty set by the Inland Revenue Board ("IRB"), which will be deducted by the PRS Provider from the redeemed amount. However, the tax penalty is not applicable for withdrawals due to death of a Member, permanent departure of a Member from Malaysia, permanent total disablement, serious disease, mental disability of a Member, for healthcare purposes or for housing purposes.

However, where an employer makes a contribution on behalf of an employee, the vested units may be maintained in Sub-Account A only.

Cooling-off

If you make a contribution and later decide that the investment does not suit your needs, you may withdraw your money within the cooling-off period. You may exercise cooling-off rights within six (6) Business Days of making the contribution. This is however, only available on your first contribution in any private retirement scheme. The PRS Provider will process and pay the cooling-off proceeds to the Member within seven (7) Business Days after the PPA's authorization is received by the PRS Provider. The cooling-off right is not available for subsequent contributions whether to the Scheme or a private retirement scheme managed by another PRS provider. The cooling-off right is not available to staff of the PRS Provider, persons registered with a body approved by the SC to deal in private retirement schemes and contributions made to the Scheme by employer on behalf of employee.

Transfer of units

For pre-retirement transfer from one or multiple Funds under the Scheme to another PRS providers, it can be requested by a Member once every calendar year provided that such Member has been a Member of the Scheme (whether via Member's contribution or employee's contribution) for at least one year and all accrued benefit to be transferred from a Fund must be transferred to only one (1) other Fund. The PRS Provider must pay the proceeds to the other PRS provider within five (5) Business Days upon receiving a complete transfer form from the PPA. For units issued under or pursuant to Employer-Sponsored Retirement Schemes which are subject to Vesting Schedules, transfer is not permitted until such units are unconditionally vested in a Member.

Switching of funds

Switching is allowed between Funds under the Scheme subject to a fee. However, switching between Class(es) within a Fund and switching between Class(es) between Funds are not allowed. For switches between Funds under the Scheme, you may be charged up to 3.00% of amount switched. For example, you will be charged 2% of switching fee when you switch from a lower sales charge fund (i.e. 1% sales charge) to a higher sales charge fund (i.e. 3% sales charge).

However, you can only switch units in a Fund to another Fund under the Scheme, provided it is under the same sub-account, i.e. Sub-Account A of AmPRS – Growth Fund to Sub-Account A of AmPRS – Moderate Fund. Switching between Class(es) is not allowed. For example, you are not allowed to switch from Class D of AmPRS – Growth Fund to Class I of AmPRS – Growth Fund. You are also not allowed to switch from Class D of AmPRS – Growth Fund to Class I of AmPRS – Moderate Fund.

Note: Switching from a Shariah Compliant fund to any other non-Shariah Compliant fund(s) is discouraged for Muslim Members.

Withdrawals

Request for payment for withdrawals from any of the Funds under the Scheme may be made in the following circumstances:

No.	Circumstances for withdrawal	Sub-Account	Extent of withdrawals	Period for payment to be made
a)	After the day the Member reaches the Retirement Age	A & B	Partial or full	Within seven (7) Business Days after the PRS Provider received a complete withdrawal request from a Member
b)	Pre-retirement withdrawals from Sub-Account B	B	Partial or full	
c)	Permanent departure of a Member from Malaysia	A & B	Full	
d)	Following death of a Member (regardless of whether or not a nomination has been made)	A & B	Partial or full	Within seven (7) Business Days after the PRS Provider received an authorization from the PPA
e)	Withdrawals due to permanent total disablement, serious disease or mental disability of a Member	A & B	Full	Within seven (7) Business Days after the PRS Provider received a complete withdrawal request (either received directly or through a notification from the PPA)
f)	For healthcare purpose	B	Partial or full	Within seven (7) Business Days after the PRS Provider received a complete withdrawal request
g)	For housing purpose	B	Partial or full	

In relation to request for withdrawal, the PRS Provider may receive such request from a Member, a nominee, an executor, trustee or administrator of a Member's estate either directly or through a notification from PPA. The PRS Provider also must obtain prior authorization from PPA before issuing instructions to the Scheme Trustee to cancel units in the case of a withdrawal following the death of a Member. The PRS Provider or PPA, as the case may be, may require the Member to provide evidence of the facts necessary to establish the Member's right to withdraw monies from any Fund under the Scheme.

The pre-retirement withdrawal from Sub-Account B above can be requested by a Member once every calendar year provided that such Member has been a Member of the Scheme (whether via Member's contribution or employer's contribution) for at least one year. Members who have contributed to funds of multiple PRS providers may request for multiple pre-retirement withdrawals in a year provided only one pre-retirement withdrawal request is made to each PRS provider.

A PRS Provider will deduct the applicable tax penalty of eight percent (8%) or such other applicable tax penalty from the withdrawn amount before making payment to the Member. However, for pre-retirement withdrawals due to death of a Member, permanent departure of a Member from Malaysia, permanent total disablement, serious disease, mental disability of a Member, for healthcare purposes, for housing purposes or upon reaching the Retirement Age, a Member shall be entitled to withdraw full amount accumulated in all Funds under the Scheme held by the Member as accrued benefits without payment of any tax. For units issued under or pursuant to Employer-Sponsored Retirement Schemes which are subject to Vesting Schedules, withdrawal is not permitted until such units are unconditionally vested in a Member.

What are the risks?

General investment risks

Market Risk	This is the risk of prices of assets falling in response to general market factors such as economic factors, socio-political environment, regulatory factors and broad investor sentiment.
Inflation Risk	This is the risk that Members' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation.
Country Risk	Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in.
Non-Compliance Risk	This is the risk of the PRS Provider, its delegates or the Trustee not complying with their respective internal policies, the deed and its supplemental deed, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.
Capital and Returns Not Guaranteed	Members should take note that there is no guarantee of income distribution and capital appreciation.

Risks specific to the Fund

Risk of a Passive Strategy	As the Fund adopts a passive strategy of investing a minimum of 85% of its NAV into the Target Fund at all times, this strategy would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's net asset value declines.
Risk of not Meeting the Fund's Investment Objective	This is the risk that the Fund may deviate from the intended investment objective.
Shariah Non-Compliance Risk	This is the risk of the Fund not conforming to Shariah investment guidelines. Note that as the Fund can only invest in Shariah Compliant instruments, non-compliance may adversely affect the NAV of the Fund when the rectification of non-compliance results in losses.
Capital Distribution Risk	The Fund may distribute from its capital. Capital distributions represent a return or withdrawal of part of the amount of the Members' original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV of the Fund and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.
Liquidity and Suspension Risk	Liquidity risk refers to the ease of liquidating the underlying asset of the Target Fund depending on the Target Fund's volume traded in the market. Liquidity risk may cause the PRS Provider to dispose the units of the Target Fund at unfavourable price. Thus, the value of the Fund's investments would fall and subsequently the value of a Member's investments would be reduced. There may be exceptional circumstances, which could cause delays in the redemption of units of the Target Fund and units of the Fund. In the event of exceptional circumstance such as suspension of calculation of net asset value of the Target Fund, no units of the Target Fund will be redeemed and the Fund may be suspended. If the Fund is suspended, Members may not receive their redemption proceeds within the stipulated timeline and their investments will continue to be subjected to the risk factors inherent to the Fund.
Related Party Transaction Risk	The Fund may invest in CIS managed by the PRS Provider. The Fund may also have other dealings with parties related to the PRS Provider. Hence, the Fund may be exposed to related party transaction risk, which in this context refers to the risk where the PRS Provider may make certain investment decision for the benefit of the Investment Manager and/or parties related to the PRS Provider which may be at a disadvantage to the Fund and/or the CIS. For example, the Fund may invest in CIS managed by the PRS Provider with the pricing policies, manner of settlement and/ or other terms of the transactions different from those with independent parties.

Risks specific to the Target Fund

Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments and their expected ability to make timely payment of profit or interest and/or principal. Default risk relates to the risk that an issuer of a fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Target Fund.
Interest Rate Risk	This is the risk of an increase in interest rate causing in the broader economy the value of fixed income instruments held by the Target Fund to generally decline. Note that the term structure of interest rate is a general economic indicator that will have an impact on the Target Fund. It does not in any way suggest

	that the Target Fund will invest in conventional financial instruments.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Target Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Target Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Emerging Market Risk	The Target Fund may be investing in Shariah-compliant securities in emerging markets which may be subject to higher political, regulatory and liquidity risks compared to these risks in developed markets.
Currency Risk	As the investments of the Target Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments.
Shariah Non-Compliance Risk	This is the risk of the Target Fund not conforming to Shariah investment guidelines. Note that as the Target Fund can only invest in Shariah Compliant instruments, non-compliance may adversely affect the NAV of the Target Fund when the rectification of non-compliance results in losses.
Related Party Transaction Risk	The Target Fund may invest in CIS managed by the PRS Provider. The Target Fund may also have other dealings with parties related to the PRS Provider. Hence, the Target Fund may be exposed to related party transaction risk, which in this context refers to the risk where the PRS Provider may make certain investment decision for the benefit of the PRS Provider and/or parties related to the PRS Provider which may be at a disadvantage to the Target Fund and/or the CIS. It is the PRS Provider's policy that all transactions with related parties are to be executed on terms which are not less favorable to the Target Fund than on arm's length transaction between independent parties.

Note: The abovementioned risks which Members should consider before contributing into the Scheme and Funds under the Scheme should not be considered to be an exhaustive list.
