New Corporate Onboarding Checklist

Shell Company Checklist

Definition of Shell Company

A shell company is an "incorporated company with no independent operations, significant assets, ongoing business activities, or employees."

Identification of Shell Company

Please refer to below risk assessment on identification of shell company characteristics during onboarding, opening new accounts, requesting additional facilities and as part of the ongoing due diligence review.

The Company should not be onboarded/retained if any of the below is met:

- Any shell company characteristic is identified without valid justification; or
- Multiple shell company characteristics are identified from both "Customer Profile" and "Ownership & Control Structure"

For NTB customer, onboarding is not allowed, and an escalation should be raised to Group Compliance CDD Advisory.

For ETB customer, exit of business relationship should be initiated, and Questionable Activities Reporting should be reported to Group Compliance along with an escalation raised to Group Compliance CDD Advisory.

In the event that Business Unit insists to onboard/retain a company that has met above condition(s), the senior management of the Business Unit (Line of Business Head, or Managing Director, or CEO of the legal vehicle where the business is booked) should send the onboarding/retaining recommendation with valid justification to Group Compliance CDD Advisory.

10.	[ETB only] frequent or quick changes of corporate structures that include the beneficial ownerships, after account has been opened.	☐	☒	No changes

New Corporate Onboarding Checklist

Appendix F: Multiple Citizenship & EDD Assessment Checklist

Note: if multiple citizenship, please ensure the following steps are completed:

i.	Proof of multiple citizenship: Collect and verify official identification documents for both nationalities (e.g., passports, national ID cards).
ii.	Screening: Conduct screening for both nationalities via NetReveal system and adverse media check through public searches on the individuals.
iii.	Country Risk Assessment: Assess the country risk associated with each nationality: • If one or both nationalities are linked to a sanctioned country, please do not proceed with onboarding.
iv.	If one or both nationalities are linked to a high-risk country, apply enhanced due diligence (EDD).
v.	EDD Measures include but not limited to: • Request documentation to corroborate Source of Fund, Source of Wealth (e.g., investment from real estate, bonds etc.) • Considering the customer's ties to the high-risk countries and assess the CB/RBI program governance (e.g., whether the government/immigration authorities/agents to process the application in the jurisdiction are properly regulated, or known for corruption, lack of tax transparency standards) • Assess if the individual is a Political Exposed Person (PEP) in any jurisdiction. If yes, further consultation from Group Compliance is required. • Understand the purpose of holding multiple nationalities/passports (asses the risk of passport shopping i.e., access the more countries without visa restrictions to circumvent sanctions, conceal true identity or country of origin etc.) • Raise internal QAR to Group Compliance if there is no legitimate connection (e.g., family, or unjustified residency) to the passport issuing country.
vi.	AML Risk Rating Review: Check whether the customer's AML risk rating generated by NetReveal is "High Default". If not, escalate the case to Group Compliance KYC Advisory Team to request elevation of the risk rating to "High Default".
